

The Book Of Love – EMERALD

Who wrote the book on love ?
Did it come from above ?
I bet there's big and small love.
You and me, is called love.

When we first met, it was love.
Was it really natural love ?
Or was it just the season for love ?
Got ta give me reason to love.

Throw out the book of love.
Every day can't be love.
Rewrite The Book Of Love.
Send something down, from above.

Gotta have a reason for love.
Gotta have a reason for love.
Got ta give me reason to love.

Let's make a new kinda love.
Can we make a new version of love ?
You can go different ways, and nobody stays, that's still love.
You can go your own way, nobody stays, that's still love.

Un Natural ways they call love.
You next to me, is called love.
You can go different ways, and nobody stays, that's still love.
You can go your own way, nobody stays, that's still love.
